While 공부 do 코딩

Our project scope

1. Build a working QA system from a scratch

- Problem setup
- Understanding the whole system from data to algorithm
- Knowing the current state of the art

2. Attack more advanced application or problem set

- SQuAD
- Knowledge based + DL QA system

Question Answering (QA) System

Could you tell me the name of the president in France?

https://en.wikipedia.org/wiki/President_of_France

The **President** of the French Republic is the executive head of state of **France** in the French Fifth ...

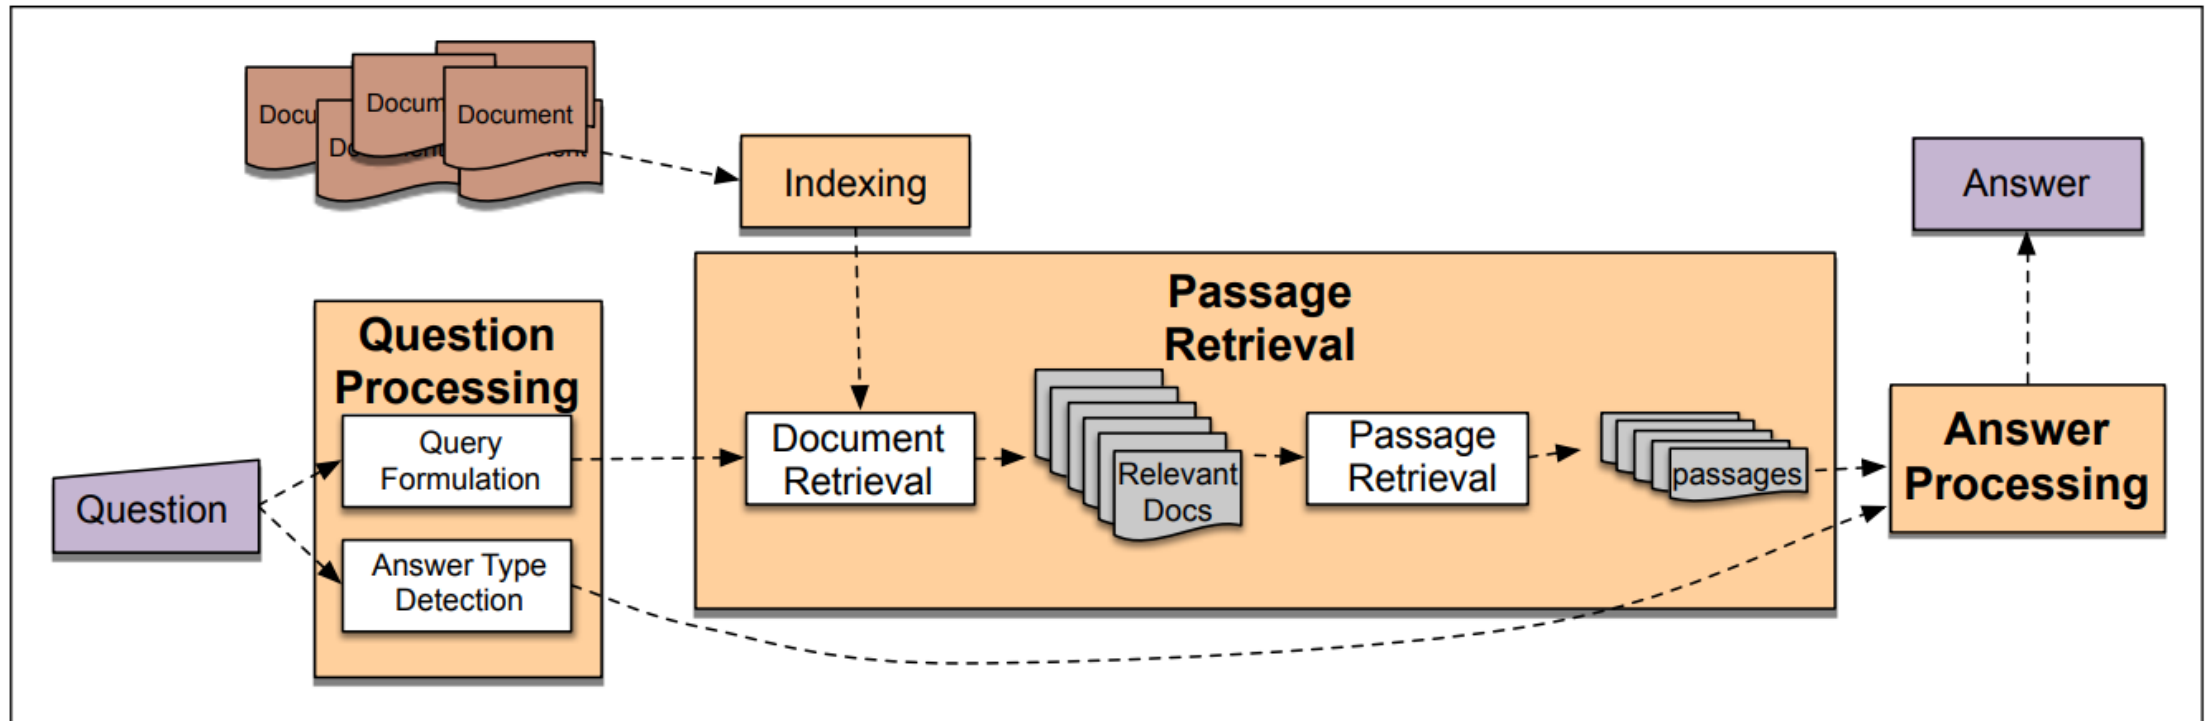

Question Answering (QA) System

Question answering (QA) is a computer science discipline within the fields of **information retrieval** and **natural language processing (NLP)**, which is concerned with building systems that automatically answer questions posed by humans in a **natural language**.

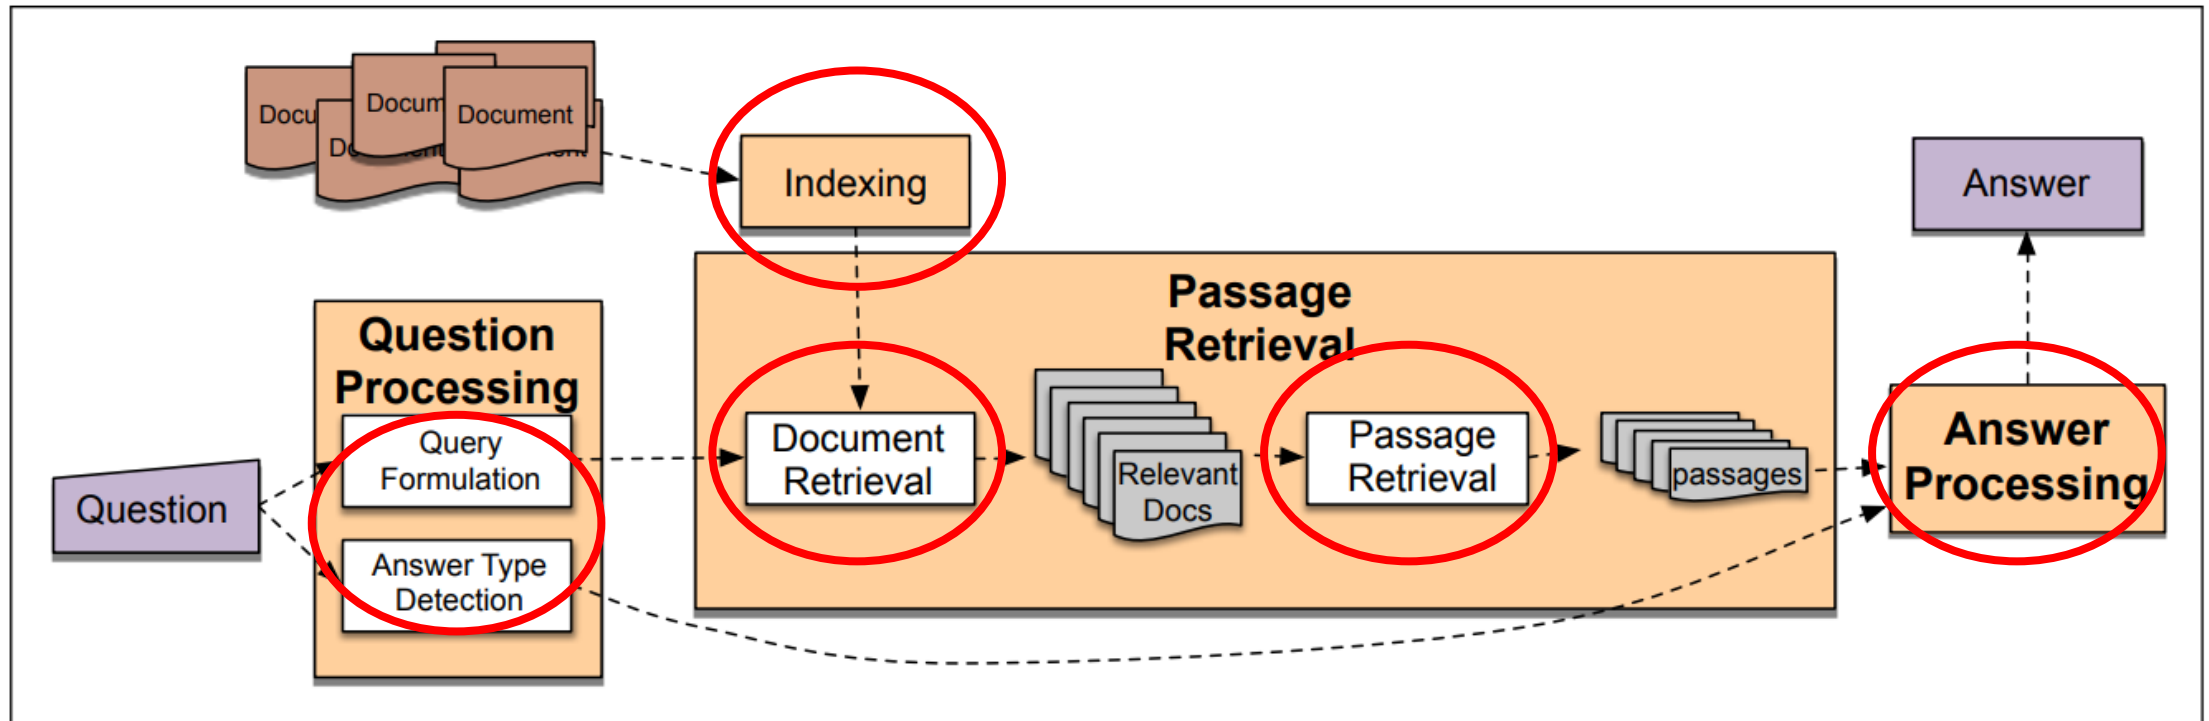

- Closed-domain
- Open-domain

Question Answering (QA) System

Can tackle open domain QA problem.
: very powerful and general

Question Answering (QA) System

Every module needs a separate treatment of its own
: Complex, needs for heavy domain expertise

Question Answering (QA) System

Deep learning !

- End-to-end
- Fast and efficient (if it can be trained)
- Easy to start for newbies (well...at least easy to try)
- Better performance? (maybe... if we have enough data and good structure based on strong domain knowledge)

Question Answering (QA) System

Deep learning !

- End-to-end
- Fast and efficient (if it can be trained)
- Easy to start for newbies (well...at least easy to try)
- Better performance? (maybe... if we have enough data and good structure based on strong domain knowledge)

Question Answering (QA) System

Deep learning !

- End-to-end
- Fast and efficient (if it can be trained)
- Easy to start for newbies (well...at least easy to try)
- Better performance? (maybe... if we have enough data and good structure based on strong domain knowledge)

Question Answering (QA) System

Deep learning !

- End-to-end
- Fast and efficient (if it can be trained)
- Easy to start for newbies (well...at least easy to try)
- Better performance? (maybe... providing another venue for improvements)

How to QA? – Problem Setup

Two supporting facts **story**

- 1 Mary got the milk there.
- 2 John moved to the bedroom.
- 3 Sandra went back to the kitchen.
- 4 Mary travelled to the hallway.

5 Where is the milk? **question**
answer

hallway 1 4 **supporting line**

SQuAD

The Stanford Question Answering Dataset

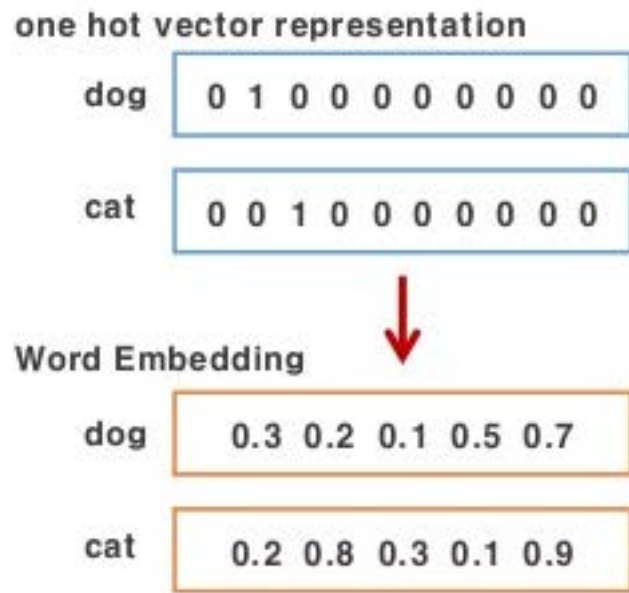

The first recorded travels by Europeans to China and back date from this time. The most famous traveler of the period was the Venetian Marco Polo, whose account of his trip to "Cambaluc," the capital of the Great Khan, and of life there astounded the people of Europe. The account of his travels, *Il milione* (or, *The Million*, known in English as the *Travels of Marco Polo*), appeared about the year 1299. Some argue over the accuracy of Marco Polo's accounts due to the lack of mentioning the Great Wall of China, tea houses, which would have been a prominent sight since Europeans had yet to adopt a tea culture, as well the practice of foot binding by the women in capital of the Great Khan. Some suggest that Marco Polo acquired much of his knowledge **through contact with Persian traders** since many of the places he named were in Persian.

How did some suspect that Polo learned about China instead of by actually visiting it?

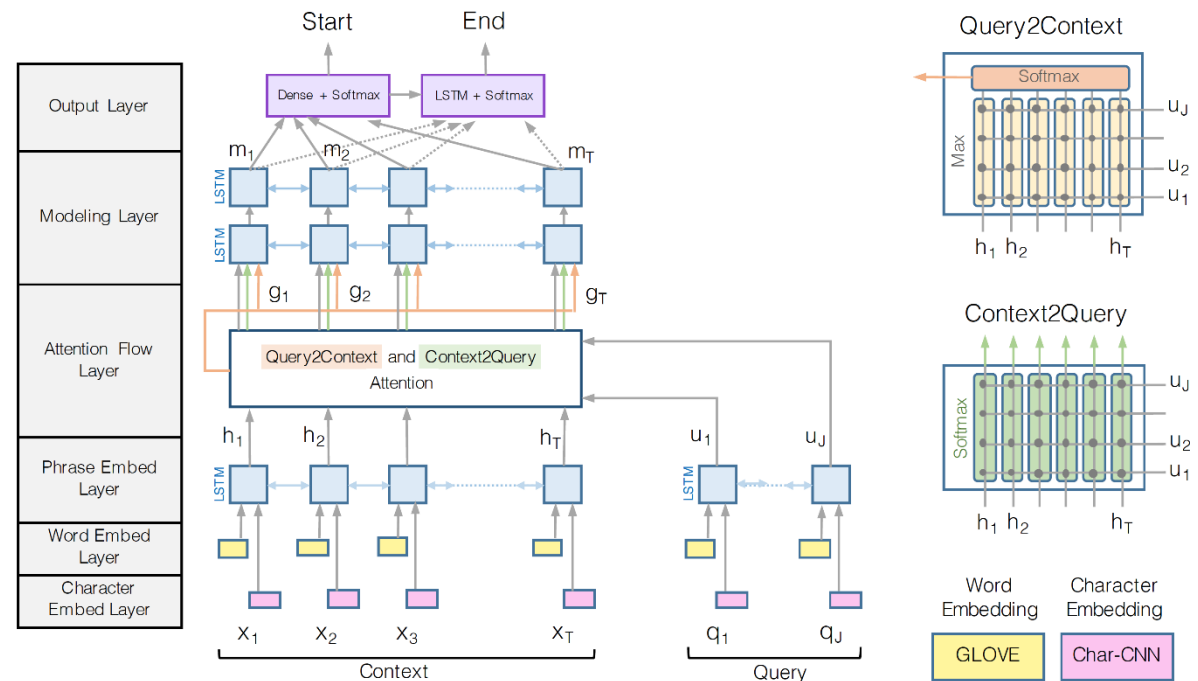

Answer: **through contact with Persian traders**

How to QA?

QA 시스템이 어떻게 동작하는지 알아보자!

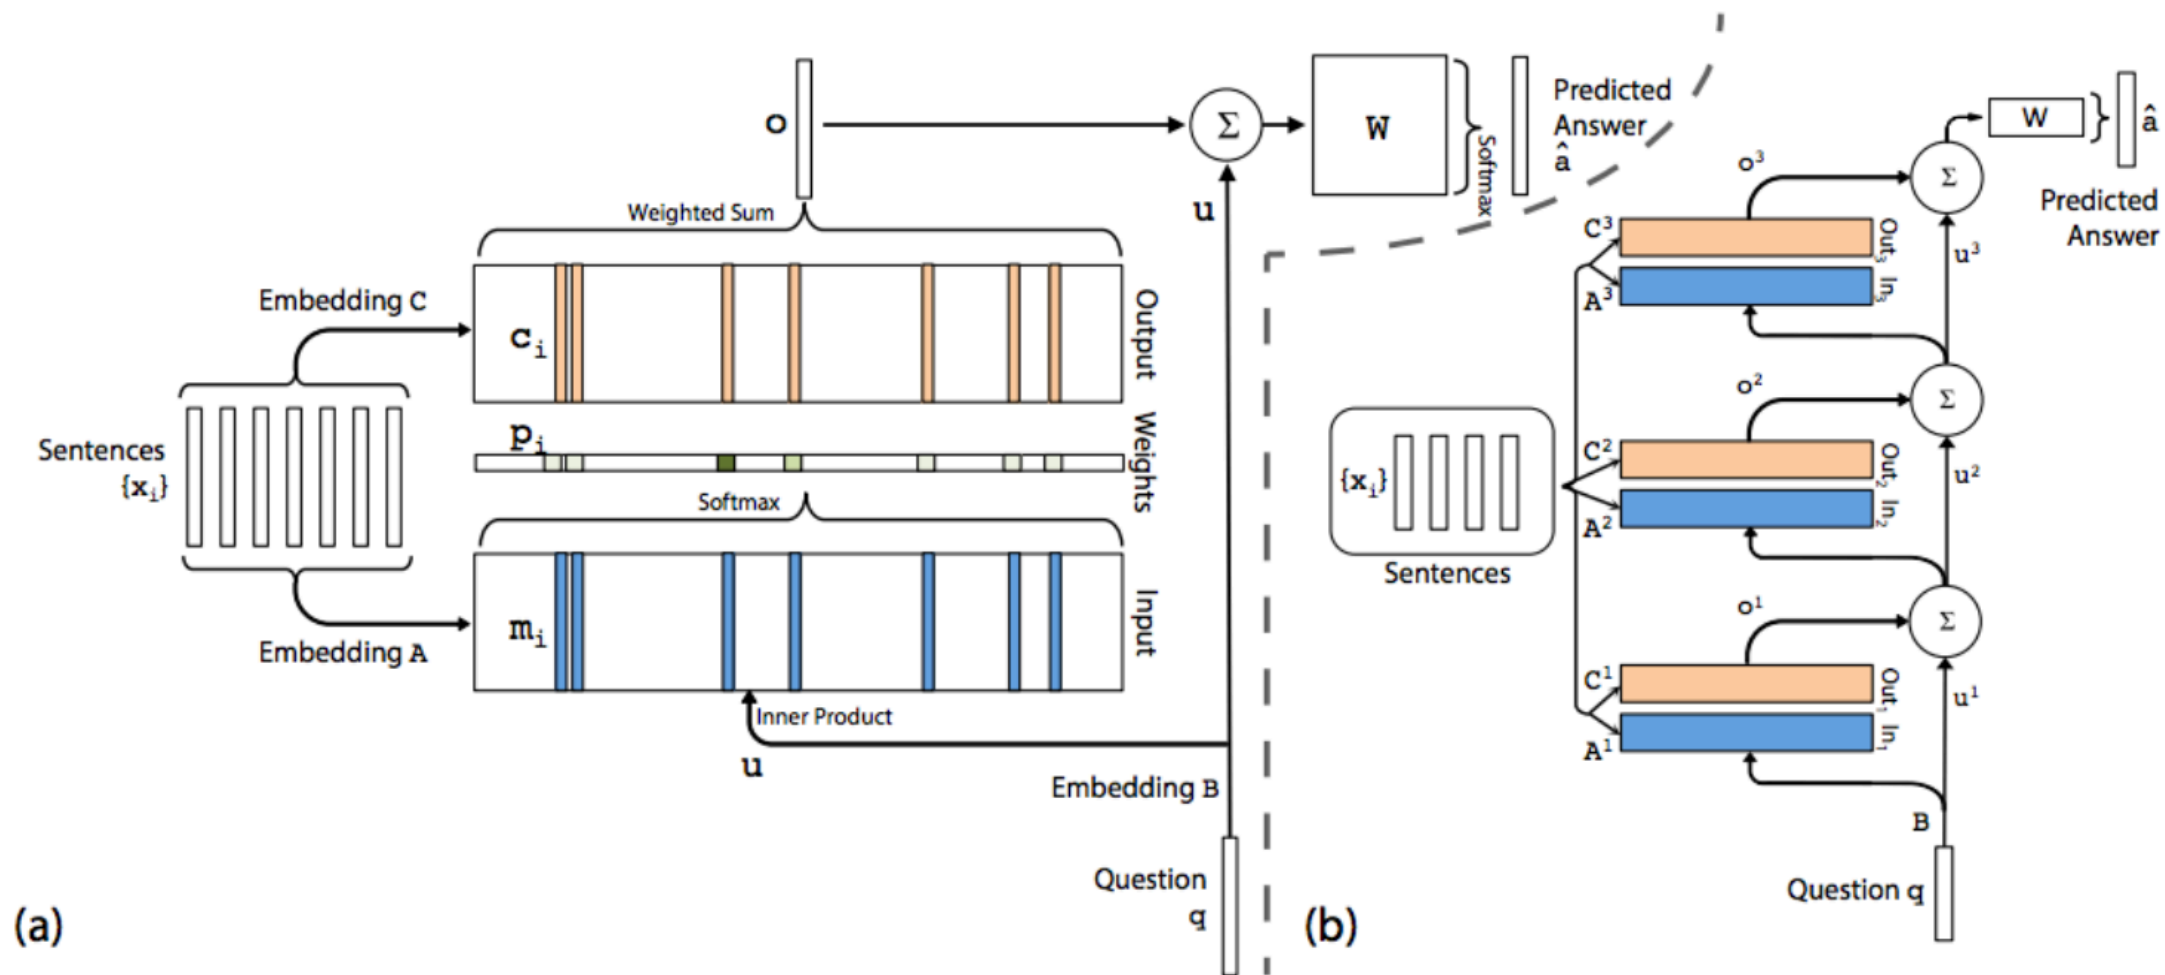

❖ 입력된 질의를 기계가 어떻게 받아들이는지 (자연어 처리)

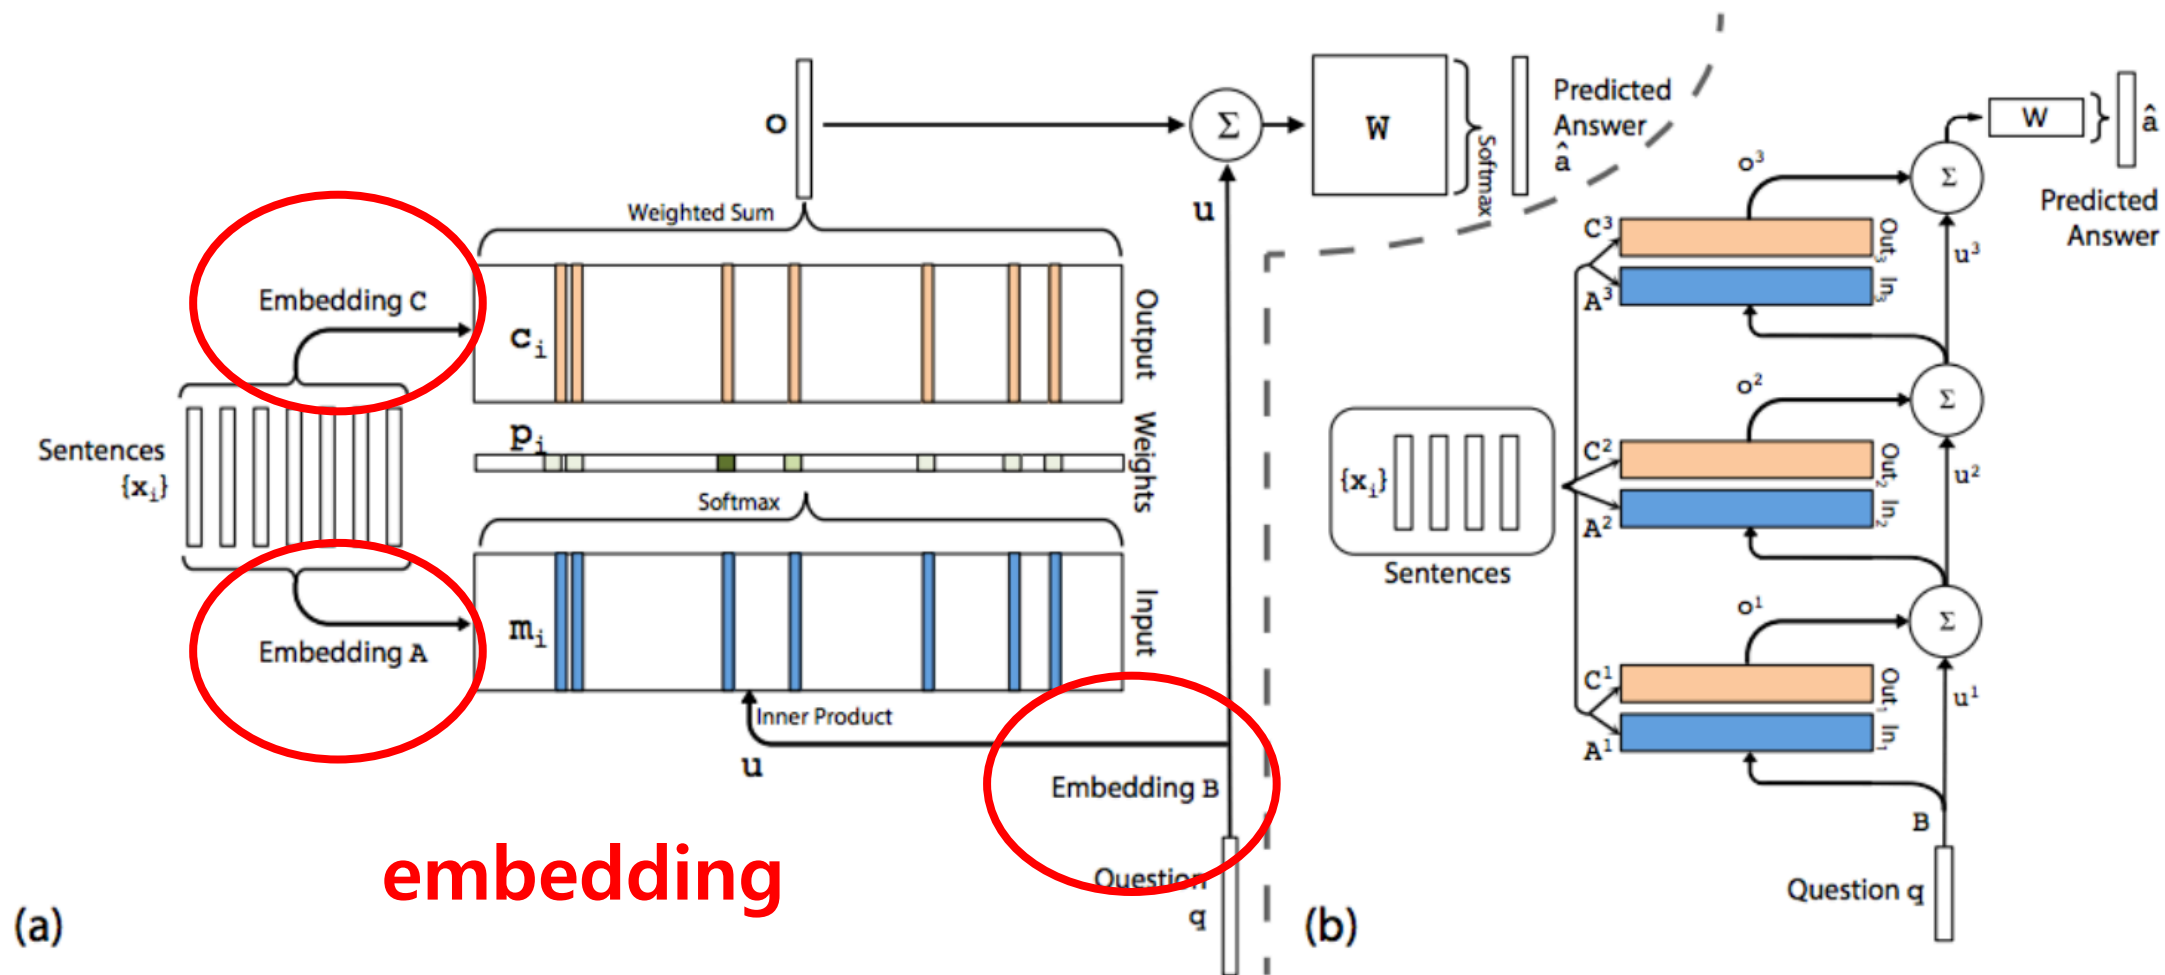

❖ 질문에 대한 답을 제시하기까지 어떠한 과정을 거치는지

The Stanford Question Answering Dataset

The first recorded travels by Europeans to China and back date from this time. The most famous traveler of the period was the Venetian Marco Polo, whose account of his trip to "Cambaluc," the capital of the Great Khan, and of life there astounded the people of Europe. The account of his travels, *Il milione* (or, *The Million*, known in English as the *Travels of Marco Polo*), appeared about the year 1299. Some argue over the accuracy of Marco Polo's accounts due to the lack of mentioning the Great Wall of China, tea houses, which would have been a prominent sight since Europeans had yet to adopt a tea culture, as well the practice of foot binding by the women in capital of the Great Khan. Some suggest that Marco Polo acquired much of his knowledge **through contact with Persian traders** since many of the places he named were in Persian.

How did some suspect that Polo learned about China instead of by actually visiting it?

Answer: **through contact with Persian traders**

**위키피디아 500개 이상의 포스팅으로부터 만들어진
100,000개 이상의 질문과 정답 세트**

지문이 주어지고, 그를 바탕으로 답할 수 있는 질문과 답이 주어짐

위키피디아를 바탕으로 여러 사람들 (crowd workers)이 직접 질문과 답을 작성

이로 인해 질문의 내용을 확장 이해해야 답을 할 수 있는 경우, 문장의 구조가 바뀌어서 문맥을 추론해야 답을 할 수 있는 경우 등의 고난이도 케이스가 포함되어 있음

SQuAD

Passage Segment

...The European Parliament and the Council of the European Union have powers of amendment and veto during the legislative process...

Question

Which governing bodies have veto power?

- ❖ Governing bodies가 The European Parliament and the Council of the EU를 지칭함을 알아야 답할 수 있는 경우

Passage Segment

...The Rankine cycle is sometimes referred to as a practical Carnot cycle...

Question

What is the Rankine cycle sometimes called?

- ❖ 지문의 referred to as 가 질문의 called 가 동일한 의미임을 알아야 하는 경우

Syntactic Variation

...During the mass high school education movement from 1910 – 1940, there was an increase in skilled workers...

What impact did the high school education movement have on the presence of skilled workers?

school	← compound	movement	← nsubj	have	→ dobj	impact	→ det	What
school	← compound	movement	→ nmod	1910	→ acl	was	→ nsubj	increase

- ❖ 질문의 문장 구조가 지문에서 정답을 포함한 문장의 구조가 달라진 경우

SQuAD: Data preprocessing

- Huge txt data
- Human errors in the dataset (wrong answer locations)
- Lots of special characters
 - Latin char, 0-9
- Stopwords (ablation)
- Stemming (ablation)

SQuAD: SOTA?

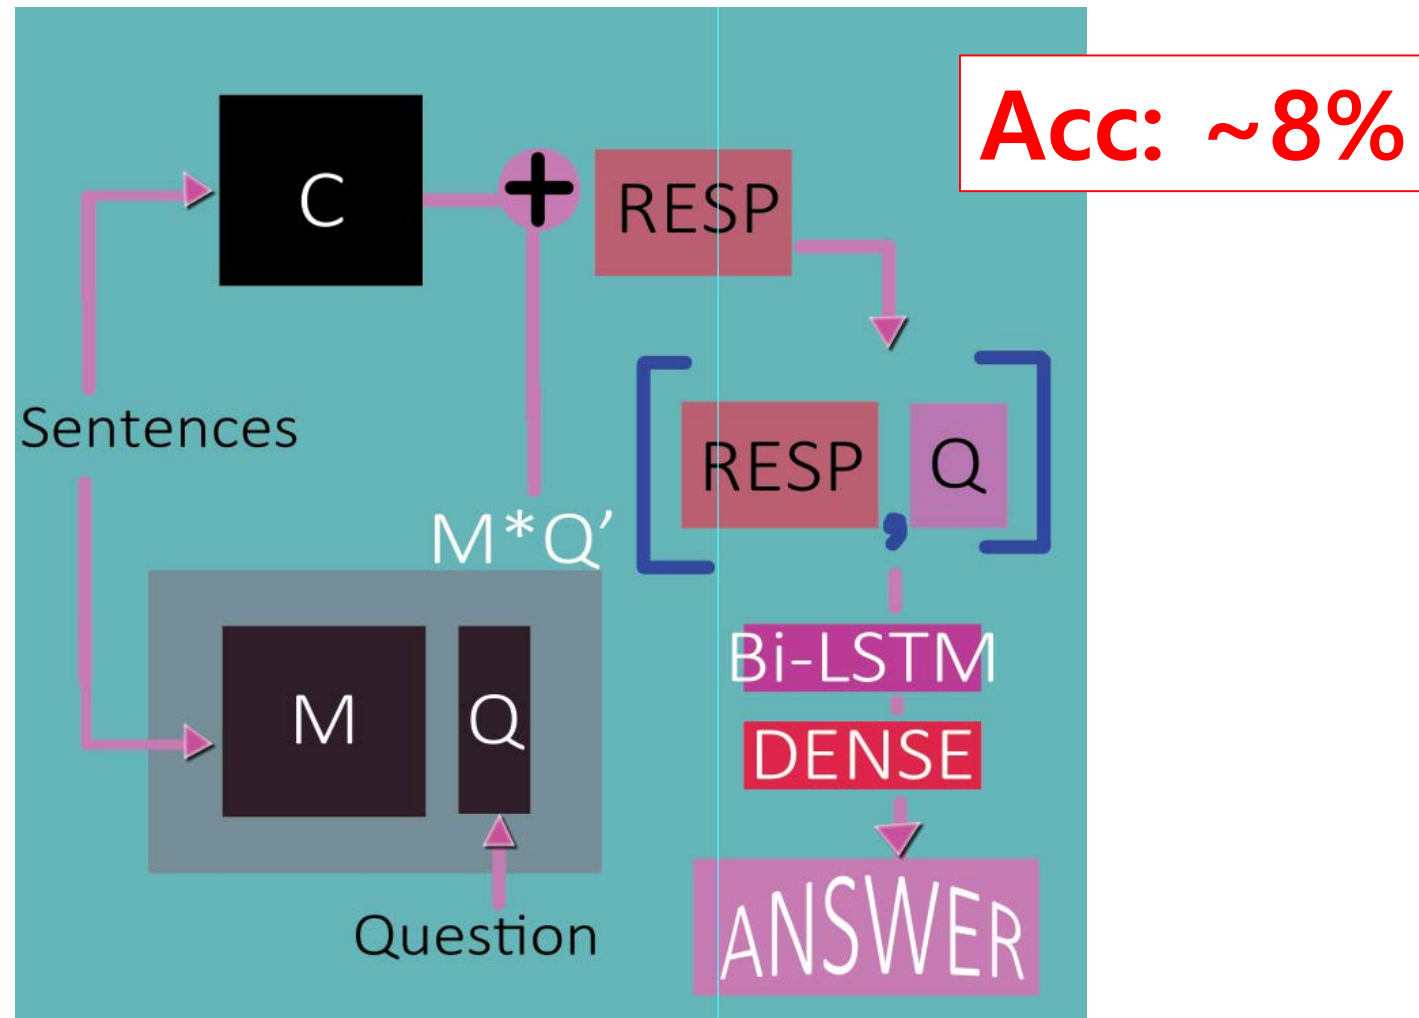

Metric

EM: Exact Match

F1: Average overlap between prediction and ground truth

MemN2N – Ours

Why?: Problem shooting

Path finding

story

Acc: ~9.5%

- 1 The garden is west of the bathroom.
- 2 The bedroom is north of the hallway.
- 3 The office is south of the hallway.
- 4 The bathroom is north of the bedroom.
- 5 The kitchen is east of the bedroom.

question

6 How do you go from the bathroom to the hallway?

s,s

4 2

supporting line

answer

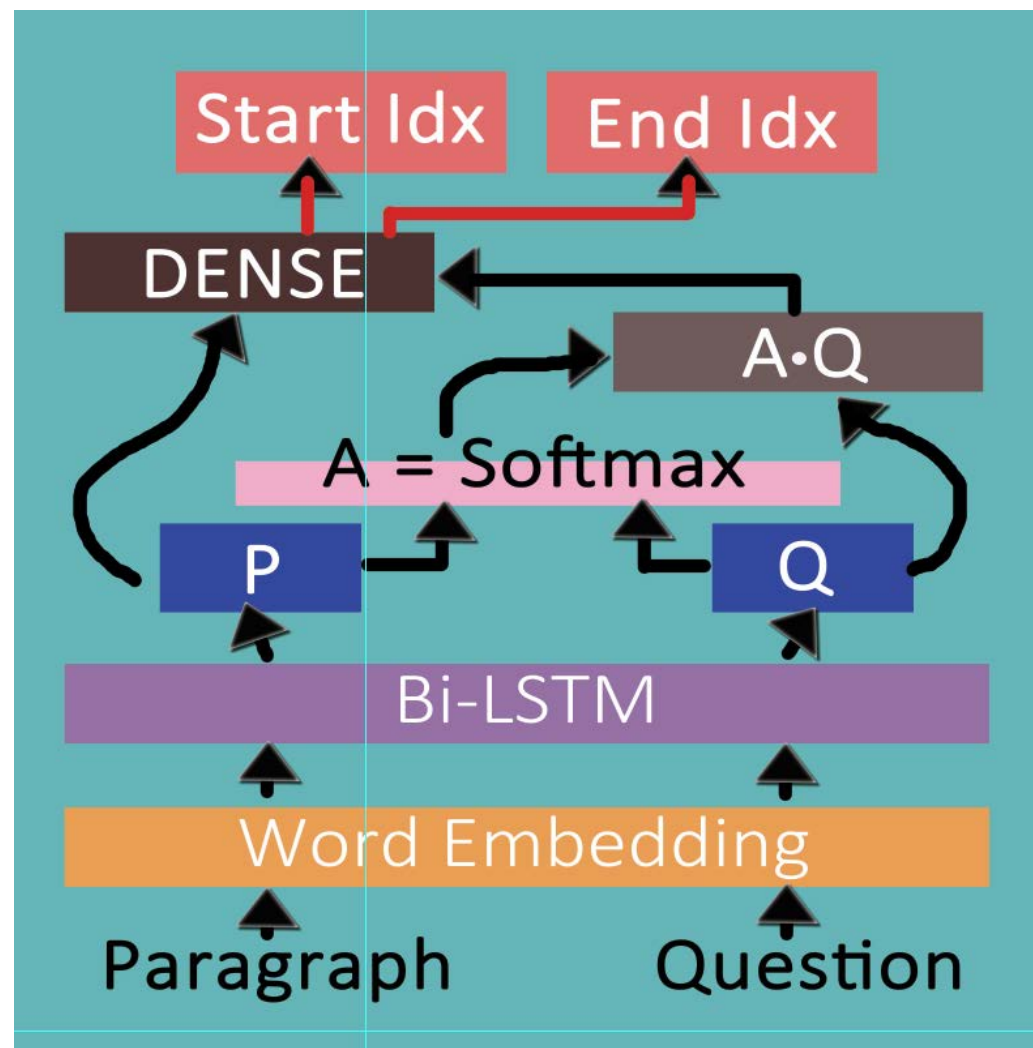

Why?: Problem shooting

1 super bowl 50 was an american football game to determine the champion of the national football league nfl for the 2015 season the american football conference afc champion denver broncos defeated the national football conference nfc champion carolina panthers 24 10 to earn their third super bowl title the game was played on february 7 2016 at levi's stadium in the san francisco bay area at santa clara california as this was the 50th super bowl the league emphasized the golden anniversary with various gold themed initiatives as well as temporarily suspending the tradition of naming each super bowl game with roman numerals under which the game would have been known as super bowl l so that the logo could prominently feature the arabic numerals 50

which nfl team represented the afc at super bowl 50
denver broncos 28 29
